

Bigfork Land Use Advisory Committee
Workshop Minutes
December 13, 2006
bigforksteering.org

The meeting was called to order by Chairman Bourquin at 10:07

The agenda was approved as emailed.

A motion was made to accept the minutes of the December 7, 2006 workshop meeting.

Motion passed (m/sc Ryan/Coverdell)

Secretary's Report: A letter emailed to the acting secretary was revised by John and was ready to be signed by BLUAC members and sent to the County Commissioners when Gary Ridderhoff reported that the policy numbers referred to in the letter needed to be changed. The planning board had made some changes which resulted in different policy numbers. The planning board had completed their task of review and the Growth Policy was now in the hands of the commissioners. It was decided that Darrel Coverdell would send the acting secretary his copy of the letter and she would insert the correct new numbers and mail the letter.

Old Business: A lengthy discussion was held on parts of Gwen Sutherland and Brett Thuma's comments. They were considered and discussed and will be sent along the BNP to the planning board.

Next order of business was typo errors from the original and revised versions.

The committee then discussed Section IX through to the end of the book.

New Business: The rest of the meeting addressed the remarks from the BSC Executive Board on several items from the original and revised versions of the BNP.

Next Meeting: Hopefully a workshop to check over the whole document with all of the revisions can be held December 28, 2006. All will be duly notified.

The meeting was adjourned at 4:58

Pat Wagner, Acting Secretary,
